PROFESSIONAL EXPERIENCE

Software Engineer - Technical Lead, ML Experiences (Infra) · **Meta (formerly Facebook), USA** Apr 2026 - current

- Led strategy and hands-on development of agentic experiences and Prompt/Skill architecture across 50+ codebases for UI tools used by ML Researchers
- Developed cornerstone components for broad use in AI research tooling utilizing best-in-class technologies

Key Tech: WebGPU, WebAssembly, DuckDB, Rust, NextJS, Vercel, Google Cloud

Software Engineer, Meta SuperIntelligence Labs (Infra) · **Meta (formerly Facebook), USA** Apr 2022 - Apr 2026

- Led development of UI and webserver infrastructure for internal tools used by researchers and engineers across all of Meta's AI Training and Evaluations development teams.
- Also led and implemented the direction for best practices across React and GraphQL implementations across the UI/UX teams within the organization, along with server-side optimizations in practice.

Key Tech: React, TypeScript, FlowJS, Hack(hacklang), Relay, GraphQL, Python, Apache Thrift

Software Engineer (Commerce Engineering (Consumer Stores)) · **Meta (formerly Facebook), Singapore** Dec 2019 - Apr 2022

- Built core infrastructure features used to refresh Facebook's Oculus and Portal marketing websites, including the revamp of the website in line with the release of the Oculus Quest 2 headset.
- Built code-less systems for creatives and marketing departments to assemble and build modern web experiences, and also built tools for code analysis and code generation that significantly improved develop-to-ship times within the various teams at Facebook.

Key Tech: Hack(hacklang), React (javascript), Relay, GraphQL

Lead Software Engineer (Developer Experience - Automation Platform) · **Grab, Singapore** Jan 2019 - Dec 2019

- Led a sub-team of 6 in the development of in-house testing tools, libraries, backend services, and necessary infrastructure for testing microservices at scale, whilst also contributing as an active developer.
- Designed and implemented the tools and processes for functional, integration, and performance testing of Grab's backend microservices.
- Also served as interim team lead for the larger team of 13 from 2018.

Key Tech: Go, Python, Shell Script(Bash), OpenAPI (Swagger), Protobuf, gRPC, Elasticsearch, MySQL, Jenkins, AWS, Docker, Kubernetes

Senior Software Development Engineer in Test · **Grab, Singapore** Jan 2017 - Jan 2019

- Spearheaded development of a full tech stack for automated integration and end-to-end testing of Grab's microservice architecture.
- Was promoted within 6 months to a technical leadership role in test strategy and test stack development.

Key Tech: Go, Python, Shell Script(Bash), OpenAPI (Swagger), Protobuf, gRPC, Elasticsearch, MySQL, Jenkins, AWS, Docker, Kubernetes

Software Engineer in Test · **Acronis Asia Research and Development, Singapore** Mar 2016 - Oct 2016

- Development and maintenance of product testing framework and environments.
- Roles and responsibilities included testing architecture development for new product directions, as well as mentoring multiple teams of interns.

Key Tech: Python, Go, Batch Script, NoSQL (ElasticSearch)

Programming Tutor · **University of Adelaide, Australia** Jan 2014 - Dec 2015

- Tutor for programming languages used in undergraduate courses taught by the University.

Key Tech: C, C++, MATLAB, PHP

MyUni Assist Amabassador · **University of Adelaide, Australia** Jan 2015 - Dec 2015

- Front-end support for the University-wide Learning Management System.
- Responsibilities include organising software orientation sessions, as well as at-the-elbow support.

Key Tech: Blackboard Learning Management System

Relief Teacher, Mathematics · **Ministry of Education, Singapore** 2006 - 2009

- Ad-hoc Substitute Teacher for Mathematics in multiple Secondary Schools.

AWARDS & HONORS

The Google Prize for Honours Computer Science 2015 Apr 2016

Issued by **Google** · Associated with The University of Adelaide

This prize was established to recognise the student obtaining the highest mark in the Bachelor of Computer Science with Honours program in 2015 at The University of Adelaide, Australia.

EDUCATION

The University of Adelaide, Australia
Honours Degree of Bachelor of Computer Science
2012-2015
result: (78.75%) Second Upper Class
thesis: 3D Surface Change Detection
awards: The Google Prize for Honours Computer Science Highest marks in the Honours Degree of Bachelor of Computer Science

Seoul National University, South Korea
Exchange Program
2014
project: Collaboration project with NAVER Labs (http://lab.naver.com/) Readability Module for the Higgs Web Engine

Temasek Polytechnic, Singapore
Diploma in Integrated Facility Design and Management
2006-2009
gpa: 3.02 of 4
distinctions: Computer Aided Design and Building Specifications, Human-centered Design and Ergonomics Space Planning Organisational Communication

SKILLS & TECHNOLOGIES

LANGUAGES & FRAMEWORKS
Go, Go Templates, Dart, Flutter, Javascript (React, Flow), Hacklang, PHP, Python, Bash, C, C++, Java, MATLAB, shellscript (bash/batch), AutoHotkey - Macro/Scripting, JavaScript/jQuery, Node.js HTML, CSS3

CLOUD PLATFORMS
Google Cloud (GCP), Cloud Run, GKE

VERSION CONTROL
Subversion, git, mercurial, BitBucket

CI / CD TOOLS
GitLabCI, CodeShip, TravisCI, Jenkins

SOFTWARE & PROJECT TOOLS
JIRA, Confluence, SmartBear Collaborator, Phabricator

WEB CRAWLING
Kapow Web Crawler System

DOCUMENT PROCESSING
TEX

LEADERSHIP & ACTIVITIES

LEADERSHIP HIGHLIGHTS
Technical Lead - Grab Engineering · Intern Mentor - Grab Engineering · Assistant Coach - Megaforce Taekwondo Club · President - IFDM Welfare Club, Temasek Polytechnic · Section Leader, Percussion - Temasek Wind Ensemble · Executive Committee - Peer Support Group, Temasek Secondary School

PERSONAL INTERESTS & LANGUAGES
Languages: English, Mandarin, Korean
Taekwondo: 4th Dan Blackbelt
Orchestral: Violin, Piano, Percussion/Timpani

REFEREES

Dr Tat-Jun Chin
SmartSat CRC Professorial Chair, University of Adelaide
